

Bolitrace Young

Dietetic mineral feed for young growing cattle

Particular nutritional purpose : Long-term supply of grazing animals in trace elements and/or vitamins

Instructions:

This product is intended for young growing cattle. The product can also be administrated to suckling cows. One dose of Bolitrace Young consists of :

- 1 bolus of Bolitrace Young (controlled release bolus) for cattle from 200 to 400 kg body weight:
- 2 boluses of Bolitrace Young (2 controlled release boluses) for cattle over 400 kg body weight

ZOOTECHNICAL BENEFITS:

- Availability of trace elements and vitamins essential to the animal's growth.

Distribute orally the dose of Bolitrace Young according to the weight of the animal (from 200kg) at grazing time and up to 6 months before calving. The bolus should preferably be administered by a competent person or veterinarian using a bolus gun.

Do not administer to an animal lying down. Ensure balanced nutrition. Do not administer to an animal weighing less than 200 kg. It is recommended to seek the opinion of a feed expert (or nutritionist) or a veterinarian on dosing trace elements in the daily ration and the trace element status of the herd. It is necessary to assess the need for copper, cobalt, iodine, selenium, zinc, manganese and vitamin D3 during the first 180 days after ingestion of the boluses by the animal. Simultaneous supplementation with maximum content additives from sources other than those incorporated in a bolus should be avoided.

Analytical constituents:

	Active composition	Daily supply per cow for 1 bolus	Daily supply per cow for 2 boluses
	Vegetable fat (Rapeseed), Magnesium stearate		
Additives:			
Trace elements			
3b304 Cobalt (Cobalt carbonate (II) coated)	360 mg/kg	0.17 mg	0.34 mg
3b404 Copper (Copper(II) oxide)	97 500 mg/kg	46 mg	92 mg
3b502 Manganese (manganese oxide (II))	114 700 mg/kg	54.2 mg	108.4 mg
3b603 Zinc (Zinc oxide)	208 000 mg/kg	98.2 mg	196.4 mg
3b801 Selenium (Sodium selenite)	2 100 mg/kg	1 mg	2 mg
3b202 Iodine (Anhydrous calcium iodate)	8 000 mg/kg	3.8 mg	7.6 mg
Vitamins			
3a671 Vitamin D3		500 IU	1 000 IU
3a672a Vitamin A		1 900 IU	3 800 IU
Stabilisers of intestinal flora			
4b1711 Saccharomyces cerevisiae CNCM I-1077	4.7x10 ¹¹ CFU/kg		
Analytical constituents:			
Crude protein	1.8 %		
Crude fibre	< 0.4 %		
Crude fats	6.32 %		
Crude ash	64.8 %		
Ash insoluble in HCl	4.4 %		
Sodium	0.16 %		
Iodine	8 000 mg/kg		
Cobalt	360 mg/kg		
Copper	97 500 mg/kg		
Manganese	114 700 mg/kg		
Zinc	208 000 mg/kg		
Selenium	2 100 mg/kg		
Vitamin A	4 200 000 IU/kg		
Vitamin D3	1 050 000 IU/kg		
Vitamin E	25 000 mg/kg		

Packaging :

case	2,5l	2,04kg	(5x2,04 kg)
Case - Single : 2.5l	2,5l	2,04kg	

Use the product within 24 months from its manufacturing date.

STORAGE INSTRUCTIONS

Store in a cool, dry location.

Keep out of reach of children.

UPDATED ON : 21/03/24

Product compliant with Regulation (EC) No 767/2009 on the placing on the market and use of feed for animals and with Directive 2002/32/EC on undesirable substances in animal feed.

Manufacturer

Manufactured by HY-Nutrition (αFR 35 093 001), a Feed Chain Alliance (FCA) and RCNA certified manufacturing site. Manufactured by an OQUALIM STNO certified site and suitable for "Nourished without GMOs < 0.9%" channels.
