

PRODUCT SPECIFICATIONS

DC 16

Edic.: 03

PRODUCT:	ULTRASOUND TRANSMISSION GEL (5 Kg)
REV. (yymmdd):	200424
REFERENCE:	AGE00005

GENERAL CHARACTERISTICS:

DESCRIPTION	Ultrasound scanner gel with dispenser. Spermicidal.
PRESENTATION	5 Kg airtight bag with dispenser bottle inside a cardboard box.

USES	Only for ultrasound scanning uses
-------------	-----------------------------------

SPECIFICATIONS:

DIMENSIONS	
VOLUME (Unit)	5 L
CARDBOARD BOX (4 Units)	395x400x215 mm

COMPOSITION	
Deminerlized, deionized water, acrylic polymers, lubricants, moistening agents, preservatives, neutralizer and colorants	

TECHNICAL CHARACTERISTICS	
pH	6 ± 0.5
Viscosity	75.000 – 95.000 cps

PRODUCT SPECIFICATIONS

DC 16

Edic.: 03

Ultrasound scanner gel has excellent sound transmission and high definition vision. It is suitable for work on a large scale measurement.

It does not damage the probe.

It causes no hypersensitive to the skin.

Good ductility easy to clean with water.

Highly stable.

Water-soluble, odorless.

STORAGE CONDITIONS- DISTRIBUTION

Keep in a cool place (10 - 40 °C)

Expiration date: 36 months from manufacturing date

MIN. DISTRIBUTION	1 Unit
