

SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006

EDTA 4NA 40% (NTA 0.1%) - CAN 25KG

Version 1.1

Print Date 29.01.2021

Revision date / valid from 28.01.2021

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1.	Product identifier		
	Trade name	:	EDTA 4NA 40% (NTA 0.1%) - CAN 25KG
1.2.	Relevant identified uses	of the	e substance or mixture and uses advised against
	Use of the Substance/Mixture	:	Chelating agent, industrial cleaning agent, Bleaching agents, Pulp and paper
	Uses advised against	:	At this moment we have not identified any uses advised against
1.3.	Details of the supplier of	the s	safety data sheet
	Company Telephone Telefax E-mail address Responsible/issuing person	:	Brenntag N.V. Nijverheidslaan 38 BE 8540 Deerlijk +32 (0)56 77 6944 +32 (0)56 77 5711 info@brenntag.be Master Data Administration
	Company Telephone Telefax E-mail address Responsible/issuing person	:	Brenntag Nederland B.V. Donker Duyvisweg 44 NL 3316 BM Dordrecht +31(0)78 65 44 944 +31(0)78 65 44 919 info@brenntag.nl Master Data Administration
1.4.	Emergency telephone nu	mbe	r
	Emergency telephone number	:	Belgium: Antipoison Center - Brussels TEL: +32(0)70 245 245 Netherland: National Poisoning Information Center - Bilthoven TEL: +31(0)30 274 8888 (Only for the purpose of informing medical personnel in cases of acute intoxications)
SEC	TION 2: Hazards identifi	catio	on

2.1. Classification of the substance or mixture

EDTA 4NA 40% (NTA 0.1%) - CAN 25KG

Classification according to Regulation (EC) No 1272/2008

REGULATION (EC) No 1272/2008							
Hazard class Hazard category Target Organs Hazard statement							
Skin corrosion	Category 1		H314				
Serious eye damage	Category 1		H318				
Corrosive to metals	Category 1		H290				
Acute toxicity (Oral)	Category 4		H302				
Acute toxicity (Inhalation)	Category 4		H332				
Specific target organ toxicity - repeated exposure	Category 2		H373				

For the full text of the H-Statements mentioned in this Section, see Section 16.

Most important adverse effects

Human Health	:	No further information available.
Physical and chemical hazards	:	No further information available.
Potential environmental effects	:	Material does not meet the criteria for PBT or vPvB in accordance with REACH Annex XIII.

2.2. Label elements

Labelling according to Regulation (EC) No 1272/2008

Hazard symbols	:	L P			
Signal word	:	Danger			
Hazard statements	:	H290 H302 H314 H332 H373		May be corrosive to metals. Harmful if swallowed. Causes severe skin burns and eye damage. Harmful if inhaled. May cause damage to organs through prolonged or repeated exposure.	
Precautionary statements					
Prevention	:	P260		Do not breathe dust/ fume/ gas/ mist/ vapours/ spray.	
600000003355 / Version 1.1			2/21		ΕN

EDTA 4NA 40% (NTA 0.1%) - CAN 25KG

	P280	Wear protective gloves/ protective clothing/ eye protection/ face protection.
Response	: P301 +	P310 + P331 IF SWALLOWED: Immediately call a POISON CENTER or doctor/ physician. Do NOT induce vomiting.
	P303 +	P361 + P353 + P310 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/ shower. Immediately call a POISON CENTER/doctor.
	P305 +	P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a
	P314	POISON CENTER/doctor. Get medical advice/ attention if you feel unwell.
Disposal	: P501	Dispose of contents/ container in accordance with the local regulations.

Hazardous components which must be listed on the label:

• tetrasodium ethylene diamine tetraacetate

2.3. Other hazards

For Results of PBT and vPvB assessment see section 12.5.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

				ification EC) No 1272/2008)

SECTION 4: First aid measures

4.1. Description of first aid measures

6000	00003355 / Version 1.1	4/21	EN
SEC	TION 5: Firefighting mea	asures	
	Treatment	: Treat symptomatically.	
4.3.	Indication of any immedi	ate medical attention and special treatment needed	
	Effects	: Extremely corrosive and destructive to tissue. If ingested, severe burns of the mouth and throat, as well as a danger of perforation of the oesophagus and the stomach. See Section 11 for more detailed information on health effects and symptoms. Watch victim for several hours because of possible delayed signs of poisoning.	
	Symptoms	: See Section 11 for more detailed information on health effects and symptoms.	
4.2.	Most important symptom	ns and effects, both acute and delayed	
	If swallowed	: Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. If a person vomits when lying on his back, place him in the recovery position. Call a physician immediately.	
	In case of eye contact	: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Consult an eye specialist immediately. Go to an ophthalmic hospital if possible.	
	In case of skin contact	: Wash off immediately with soap and plenty of water. Call a physician immediately.	
	lf inhaled	: In case of accident by inhalation: remove casualty to fresh air and keep at rest. If breathing is irregular or stopped, administer artificial respiration. If unconscious place in recovery position. Call a physician immediately.	
	General advice	: Take off all contaminated clothing immediately.	

EDTA 4NA 40% (NTA 0.1%) - CAN 25KG

5.1. Extinguishing media

	Suitable extinguishing media Unsuitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. High volume water jet
5.2.	Special hazards arising fro	om t	the substance or mixture
	Specific hazards during firefighting	:	Incomplete combustion may form toxic pyrolysis products.
	Hazardous combustion products	:	Carbon monoxide, Carbon dioxide (CO2)
5.3.	Advice for firefighters		
	Special protective equipment for firefighters	:	In the event of fire, wear self-contained breathing apparatus.Wear appropriate body protection (full protective suit)
	Specific extinguishing methods	:	Control smoke with water spray.
	Further advice	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

	Personal precautions	: Keep away unprotected persons. Use personal protective equipment. Ensure adequate ventilation. Avoid contact with the skin and the eyes. Do not breathe vapours or spray mist.	
6.2.	Environmental precautions		
	Environmental precautions	: Do not flush into surface water or sanitary sewer system. Avoid subsoil penetration.	
6.3.	Methods and materials for	containment and cleaning up	
	Methods and materials for containment and cleaning up	 Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders). Keep in suitable, closed containers for disposal. Use mechanical handling equipment. Keep in suitable, closed containers for disposal. 	
	Further information	: Treat recovered material as described in the section "Disposal considerations".	
6.4.	Reference to other sections	3	
	See Section 1 for emergence See Section 8 for informatic See Section 13 for waste tre	n on personal protective equipment.	
60000	00003355 / Version 1.1	5/21	EN

EDTA 4NA 40% (NTA 0.1%) - CAN 25KG

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advice on safe handling : Keep container tightly closed. Ensu personal protective equipment. Avo and clothing. Do not breathe vapou respirator with appropriate filter if va released. Emergency eye wash fou showers should be available in the	bid contact with skin, eyes ars or spray mist. Use apours or aerosol are untains and emergency
---	---

Hygiene measures : Keep away from food, drink and animal feedingstuffs. Smoking, eating and drinking should be prohibited in the application area. Wash hands before breaks and at the end of workday. Take off all contaminated clothing immediately.

7.2. Conditions for safe storage, including any incompatibilities

	Requirements for storage areas and containers	: Store in original container.
	Advice on protection against fire and explosion	: Normal measures for preventive fire protection.
	Further information on storage conditions	: Keep tightly closed in a dry and cool place. Keep in a well- ventilated place.
	Advice on common storage	: Keep away from food, drink and animal feedingstuffs.
7.3.	Specific end use(s)	
	Specific use(s)	: No information available.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Other Occupational Exposure Limit Values						
(Additional) : Contains no substances with occupational exposure limit valu						
	Contains no substances wit	h occupational expo	sure limit values.			
Component:	tetrasodium ethylene diamine tetra	acetate	CAS-No. 64-02-8			
Derived No Effect Level (DNEL)/Derived Minimal Effect Level (DMEL)						
DNEL Workers, Long	g-term - local effects, Inhalation	: 1,5 mg/m	13			
DNEL						
0000003355 / Vers	ion 1.1 6/21					

· · · · ·	
Workers, Acute - local effects, Inhalation	: 3 mg/m3
DNEL Consumers, Long-term - local effects, Inhalation	: 0,6 mg/m3
DNEL Consumers, Acute - local effects, Inhalation	: 1,2 mg/m3
DNEL Consumers, Ingestion	: 20 mg/kg bw/day
Predicted No Effect Concentrati	on (PNEC)
Fresh water	: 2,2 mg/l
Marine water	: 0,22 mg/l
Sewage treatment plant (STP)	: 43 mg/l
Soil	: 0,72 mg/kg d.w.
component: trisodium nitrilotriacetate	CAS-No. 5064-31
Derived No Effect Level (DNEL)/Derived Mini	nal Effect Level (DMEL)
DNEL Workers, Long-term - systemic effects, Inhalation	: 3,5 mg/m3
DNEL Workers, Acute - systemic effects, Inhalation	: 5,25 mg/m3
DNEL Consumers, Acute - systemic effects, Inhalation	: 1,75 mg/m3
DNEL Consumers, Long-term - systemic effects, Ingestion	: 0,5 mg/kg bw/day
Predicted No Effect Concentrati	on (PNEC)
Fresh water	: 0,93 mg/l
Marine water	: 0,093 mg/l
Intermittent releases	: 0,915 mg/l
Sewage treatment plant (STP)	: 540 mg/l
Fresh water sediment	: 3,64 mg/kg
Marine sediment	: 0,364 mg/kg

	Soil	: 0,182 mg/kg
8.2.	Exposure controls	
	Appropriate engine	ing controls
	Refer to protective m	asures listed in sections 7 and 8.
	Personal protective	quipment
	Respiratory protect	n
	Advice	 In case of brief exposure or low pollution use breathing filter apparatus. Respiratory protection complying with EN 141. In case of intensive or longer exposure use self-contained breathing apparatus.
	Hand protection	
	Advice	 Protective gloves complying with EN 374. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Protective gloves should be replaced at first signs of wear.
	Eye protection	
	Advice	: Safety goggles Face-shield
	Skin and body prot	tion
	Advice	: Impervious clothing Chemical resistant apron
	Environmental expo	ure controls
	General advice	: Do not flush into surface water or sanitary sewer system. Avoid subsoil penetration.
SEC	TION 9: Physical a	I chemical properties
9.1.	Information on bas	physical and chemical properties
	Form	: liquid
	Colour	: light yellow
6000	00003355 / Version 1	8/21 EN

-			
	Odour	:	no data available
	Odour Threshold	:	no data available
	рН	:	11 - 12
	Melting point/freezing point	:	< -18 °C
	Boiling point/boiling range	:	107 °C
	Flash point	:	Not applicable
	Evaporation rate	:	no data available
	Flammability (solid, gas)	:	no data available
	Upper explosion limit	:	no data available
	Lower explosion limit	:	no data available
	Vapour pressure	:	no data available
	Relative vapour density	:	no data available
	Relative density	:	no data available
	Solubility/qualitative	:	no data available
	Partition coefficient: n-octanol/water	:	log Kow < 0
	Auto-ignition temperature	:	no data available
	Thermal decomposition	:	no data available
	Viscosity, dynamic	:	20 mPa.s
	Explosivity	:	no data available
	Oxidizing properties	:	no data available
9.2.	Other information		
	No further information available.		
SECTION 10: Stability and reactivity			
10.1.	Reactivity		
			with strong oxidizing agents. th copper, aluminum, zinc and their alloys.
10.2.	Chemical stability		
	Advice : Stable	un	der recommended storage conditions.
60000	00003355 / Version 1.1		9/21 EN

EDTA 4NA 40% (NTA 0.1%) - CAN 25KG

10.3. Possibility of hazardous reactions

	Hazardous reactions	: In contact with metals generates hydrogen gas, which together with air can form explosive mixtures.
10	.4. Conditions to avoid	
	Conditions to avoid	: No information available.
10	.5. Incompatible materials	
	Materials to avoid	: Strong oxidizing agents, Copper, Zinc, Nickel, Aluminium, Copper alloys
10	.6. Hazardous decomposition	products
	Hazardous decomposition products	: ammonia, Carbon oxides, Nitrogen oxides (NOx)

SECTION 11: Toxicological information

11.1. Information on toxicological effects

	Acute toxicity	
	Oral	
Acute toxicity estimate	> 2000 mg/kg) (Calculation method)Harmful if swallowed.	
	Inhalation	
Acute toxicity estimate	Harmful if inhaled.	
	Dermal	
	Based on available data, the classification criteria are not met.	
	Irritation	
	Skin	
Result	Causes severe skin burns and eye damage.	
Eyes		
Result	Causes serious eye damage.	
Sensitisation		
Result	Based on available data, the classification criteria are not met.	
	CMR effects	
000003355 / Version 1.1	10/21	

	CMR Properties
Carcinogenicity	: Based on available data, the classification criteria are not met.
Mutagenicity	: Based on available data, the classification criteria are not met.
Reproductive toxicity	: Based on available data, the classification criteria are not met.
, ,	Specific Target Organ Toxicity
	Single exposure
Remarks	: Based on available data, the classification criteria are not met.
	Repeated exposure
Remarks	: May cause damage to organs through prolonged or repeated exposure.
	Other toxic properties
	Repeated dose toxicity
	no data available
	Aspiration hazard
	Based on available data, the classification criteria are not met.,

STOT		specific target organ toxicity
SVHC		substance of very high concern
UVCB		substance of unknown or variable composition, complex reaction products or biological materials
vPvB		very persistent and very bioaccumulative
Further information		
Key literature references and sources for data	:	Supplier information and data from the "Database of registered substances" of the European Chemicals Agency (ECHA) were used to create this safety data sheet.
Methods used for product classification Hints for trainings	:	The classification for human health, physical and chemical hazards and environmental hazards were derived from a combination of calculation methods and if available test data. The workers have to be trained regularly on the safe handling of the products based on the information provided in the Safety Data Sheet and the local conditions of the workplace. National regulations for the training of workers in the handling of hazardous materials must be adhered to.
Other information	:	The information provided in this Safety Data Sheet is correct to our knowledge at the date of its revision. The information given only describes the products with regard to safety arrangements and is not to be considered as a warranty or quality specification and does not constitute a legal relationship. The information contained in this Safety Data Sheet relates only to the specific material designated and may not be valid for such material used in combination with any other material or in any process, unless specified in the text.

4. Guidance to Downstream User to evaluate whether he works inside the boundaries set by the Exposure Scenario

Guidance is based on assumed operating conditions which may not be applicable to all sites; thus, scaling may be necessary to define appropriate site-specific risk management measures.

Predicted exposures are not expected to exceed the DN(M)EL when the Risk Management

Measures/Operational Conditions outlined in Section 2 are implemented.

Where other Risk Management Measures/Operational Conditions are adopted, then users should ensure that risks are managed to at least equivalent levels.

For scaling see: http://www.ecetoc.org/tra

Only properly trained persons shall make use of scaling methods while checking whether the OC and RMM are within the boundaries set by the ES

Dermal exposure	s is not considered to be rele	vant		

Dermal exposure is not considered to be relevant.

4. Guidance to Downstream User to evaluate whether he works inside the boundaries set by the Exposure Scenario

Guidance is based on assumed operating conditions which may not be applicable to all sites; thus, scaling may be necessary to define appropriate site-specific risk management measures.

Predicted exposures are not expected to exceed the DN(M)EL when the Risk Management

Measures/Operational Conditions outlined in Section 2 are implemented.

Where other Risk Management Measures/Operational Conditions are adopted, then users should ensure that risks are managed to at least equivalent levels.

For scaling see: http://www.ecetoc.org/tra

For scaling see: http://www.advancedreachtool.com

Only properly trained persons shall make use of scaling methods while checking whether the OC and RMM are within the boundaries set by the ES

1. Short title of Exposure Scenario 10: Use in adhesives and sealants

Main User Groups	SU 21: Consumer uses: Private households (= general public = consumers)
Chemical product category	PC1: Adhesives, sealants
Environmental Release Categories	ERC8a: Wide dispersive indoor use of processing aids in open systems ERC8c: Wide dispersive indoor use resulting in inclusion into or onto a matrix ERC8d: Wide dispersive outdoor use of processing aids in open systems ERC8f: Wide dispersive outdoor use resulting in inclusion into or onto a matrix ERC9a: Wide dispersive indoor use of substances in closed systems ERC9b: Wide dispersive outdoor use of substances in closed systems

2.1 Contributing scenario controlling environmental exposure for: ERC8a, ERC8c, ERC8d, ERC8f, ERC9a, ERC9b

As no environmental hazard was identified no environmental related exposure assessment and risk characterization was performed.

2.2 Contributing scenario controlling consumer exposure for: PC1: DIY-use: Glues from tubes, bottled glue

Product characteristics	Concentration of the Substance in Mixture/Article	Concentration of substance in product : 0% - 5%
	Physical Form (at time of use)	solid, liquid
Frequency and duration of use	Frequency of use	12 days/year
	Exposure duration	240 min
Other given operational	Indoor/Outdoor use.	
conditions affecting consumers exposure	Room size	20 m3

2.3 Contributing scenario controlling consumer exposure for: PC1: DIY-use: Super glue, bottled glue, carpet glue

Concentration of the Substance in Mixture/Article	Concentration of substance in product : 0% - 5%
Physical Form (at time of use) solid, liquid	
Frequency of use	52 days/year
Exposure duration	240 min
Indoor/Outdoor use.	
Room size	58 m3
	Substance in Mixture/Article Physical Form (at time of use) Frequency of use Exposure duration Indoor/Outdoor use.

EDTA Tetrasodium salt

Version 2.0

Print Date 07.08.2013

Revision Date 07.08.2013

Dermal exposure is not considered to be relevant.

4. Guidance to Downstream User to evaluate whether he works inside the boundaries set by the Exposure Scenario

Guidance is based on assumed operating conditions which may not be applicable to all sites; thus, scaling may be necessary to define appropriate site-specific risk management measures.

Predicted exposures are not expected to exceed the DN(M)EL when the Risk Management

Measures/Operational Conditions outlined in Section 2 are implemented.

Where other Risk Management Measures/Operational Conditions are adopted, then users should ensure that risks are managed to at least equivalent levels.

For scaling see: http://www.advancedreachtool.com

Only properly trained persons shall make use of scaling methods while checking whether the OC and RMM are within the boundaries set by the ES
