

Flyspray

FLYSPRAY eliminates both flying (*Musca domestica*, *Aedes aegypti* and *Culex quinquefasciatus*) and crawling insects (*Blattella germanica* and *Blatta orientalis*). After application of the product, the insects die quickly.

Instructions for use

Shake well before use (4-5 seconds).

Crawling insects: in the presence of insects, spray the product for 4-5 seconds under washbasins, on the underside of walls, under skirting boards, cracks and fissures and in the areas where insects hide.

Flying insects: in the presence of these insects, spray the product in the air for 3-4 seconds, by pointing the can towards the ceiling. Repeat the treatment if necessary, and always point the spray away from eyes and animals present in the room at the time of use.

Precautions

Avoid inhaling the mist produced by the spray. Do not swallow. Wash hands with soap and water after use. Store the product in the original container, in a cool, dry place.

First aid measures: IF CONTACT WITH EYES: Rinse thoroughly with water for several minutes. Remove any contact lenses, if this task can be accomplished easily. Continue rinsing. If swallowed, do not induce vomiting, consult a doctor immediately and show him the packaging or label. Contact the nearest poison control centre. Disposal: Dispose of empty packaging and unused products as required by municipal regulations regarding disposal of this type of waste. Do not discharge into sewers or watercourses. Pressurized container. Protect from sunlight and do not expose to temperatures above 50° c. Do not pierce or burn, even after use. Do not spray on flames or glowing objects. Keep away from flames or sparks. Do not smoke. Keep out of the reach of children. Important: before using, read label carefully.

INSECTICIDE TP18

FORMULATION

Aerosol

**REGISTRATION BELGIUM
5913B**

ACTIVE SUBSTANCES

100 g of product contains:
0.40 g Chrysanthemum cinerariae-
folium, ext. (CAS 89997-63-7)
3.00 g Piperonyl Butoxide
(CAS 51-03-6)

TARGET INSECTS

Crawling and flying insects
