PROPERTIES

- . PREFOAM + combines the active ingredient LSA ® (active complex of hydroxy acids) and surfactants.
- . The complex LSA ® gives PREFOAM + quick, extensive bactericidal and yeasticidal effectiveness.
- . PREFOAM + contains a unique combination of surfactants. These can easily form a foam that both adheres very well to the teat and can easily be wiped off.

. PREFOAM + has a softening effect on the skin from the lactic acid in the complex LSA ® and the hydrating properties of the propylene glycol.

USAGE

Method of use :

PREFOAM + is a ready-to-use bactericidal and yeasticidal disinfectant intended to disinfect teats before milking.

Quick action: - Bactericidal on Escherichia coli, Staphylococcus aureus, Streptococcus uberis in 30 seconds and yeasticidal on Candida albicans in 1 minute.

Eliminate all visible dirt before applying the product.

Fill the foam cup with PREFOAM +.

Apply PREFOAM + by foam application along the entire teat before milking.

Leave it to work for one minute.

Carefully wipe the teats systematically with paper towel or individual wipe before attaching the milking cluster.

Repeat the application at each milking.

Clean the application equipment regularly with hot water.
