

# Empty containers: rinse thoroughly and return

## 1 Check the container

- The packaging is empty
- The exterior is clean and in good condition
- The product's original labels and hazard symbols are present and clearly visible

## 2 Rinse & leave to drain

- All cans, drums and/or IBC containers have been rinsed and emptied/dried
- All cans are sealed with their original caps

## 3 Packaging on the pallet

- The product's original labels, UN number and hazard pictograms are clearly visible on the outside of the pallet
- The maximum height of the pallet is 2 metres
- The pallets are fully wrapped (sealed) or secured with straps, and labelled twice
- Collection is only possible for a minimum of 12 cans/jerrycans and/or 2 empty drums per pallet
- Undamaged pallet of type CP1, CP9 or Euro

Please note: a charge of €25 per pallet applies for the collection of empty Indufarm packaging. For packaging not supplied by Indufarm, an administrative fee of €125 per collection applies. This rate applies whenever there is at least one non-Indufarm package on the pallet. Prices exclude VAT.
